Subject: Microsoft Settlement

Regarding the settlements terms of Microsoft's repeat offender status as a monopolist please consider the wisdom of forcing Microsoft to open it's API's to competitors as espoused by Scott Rosenberg in his article for Salon.com:

<http://salon.com/tech/col/rose/2002/01/16/competition/index.html>

I couldn't have explained the need for such an apt and necessary remedy better myself.
